Varun N R

FRONT END DEVELOPER

✉ inr.varun89@gmail.com   🔗 https://nrvarun.xyz   in https://linkedin.com/in/varunnr

I am a Front end engineer with 5+ years of experience and with a great focus on UX rather than a functional UI, i believe a functional UI can only give users a normal experience and a UI with great focus on UX on all the big and little details of the UI can give a wow experience.

- Lead and architected multiple responsive scalable projects with the latest tech stack..
- React Nanodegree Certified from Udacity (https://graduation.udacity.com/confirm/4N9GG7SA).
- Solid understanding of JavaScript(ES5/ES6+) and the ability to pick up any framework quickly.
- Experience with Restful and GraphQL APIs integrations.
- Proficient with Cross-Browser compatibility issues and ways to work around such issues.
- Proficient in developing Scalable and modular Architecture apps using React, Next.js etc..
- Proficient with CSS-in-JS, Styled JSX, Styled components and CSS modules approaches for modern application architecture at scale.
